## Summary

I am a Junior Frontend Developer specializing in React.js, with experience building reusable components and integrating REST APIs. Strong understanding of component lifecycle, hooks, and state management. Excited to join a collaborative team where I can continue to grow and ship polished web applications.

## Technical Skills

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Responsive Design, DOM Manipulation, Client-side Routing

**Backend:** Node.js, Express.js, RESTful APIs, Middleware, Authentication (JWT, Sessions), Error Handling, Input Validation

**Databases:** MongoDB, CRUD Operations, Schema Design, MongoDB Atlas, Aggregation Framework (basic)

**Tools:** Git, GitHub, VS Code, Postman, NPM, Chrome DevTools, Vercel, Netlify

**Soft skills:** Adaptability, Communication Skills, Time Management

## Projects

### LuxeMatches – Matrimony Full Stack Web App

[Live Link](#) || [Client Link](#) || [Server Link](#)

LuxeMatches is a modern, premium matchmaking platform that allows users to create and explore biodata profiles, request contact access with payment, and interact through a clean, responsive UI. The platform features secure user authentication, admin control, and dynamic filtering

- **Role-based Access & Authentication:** Users can log in using Firebase Auth, and routes are protected with JWT for security.
- **Stripe Payment Integration:** Users can securely pay to request contact details, which are later approved by admins.
- **Dynamic Filtering & Pagination:** Users can filter Biodata by age, division, and gender with seamless client-server sync.

**Tech Stack:** MERN Stack (MongoDB, Express.js, React, Node.js), Tailwind CSS, Firebase Auth, Stripe, React Router, React Query, Framer Motion, SwiperJS, JWT, Axios

### WorkNest: Job Management Web Application

[Live Link](#) || [Client Link](#) || [Server Link](#)

WorkNest is a dynamic web application designed to streamline the job application process for individuals. It empowers users to efficiently discover, track, and manage their job applications in one centralized platform, fostering organization and maximizing their chances of landing their dream role.

- **Role-based dashboards:** Three role based dashboards. Admin, Hr, Employee(JWT protected)
- **Stripe integration** for employee salary payments
- **Work submission forms** and **monthly progress tracking**

**Tech Stack:** MERN Stack (MongoDB, Express.js, React, Node.js), Stripe, JWT, Firebase, Tailwind CSS, React Query, Framer Motion, Axios

### Study Sync: Online assessment platform

[Live Link](#) || [Client Link](#) || [Server Link](#)

StudySync is a full-stack online assessment platform that allows users to create, submit, and evaluate assignments with real-time feedback and leaderboard tracking.

- **Role-based access:** Admins can review, give marks, and feedback. Users create and see the assignments.
- **Preview:** Submit assignments with PDF preview and notes.
- **Features:** Pagination, Difficulty Filter, Dark/Light Mode, Leaderboard.

**Tech Stack:** MERN Stack (MongoDB, Express.js, React, Node.js), JWT, Firebase Authentication, Tailwind CSS, Axios, SweetAlert2, React Toastify, Swiper.js, React Awesome Reveal, Vercel

## Certifications

- **Complete Web Development from Programming Hero, Jan 2024 - July 2024**

[View Certificate](#)

## Education

- **Govt. Tolaram College, Narayanganj, Dhaka.**

**[2023- 2024]**

## Languages

- Bengali: Native; English,Hindi: Comfortable
