Portfolio | **Github** | **Linkedin**

Objective

Junior Frontend Developer specializing in React.js, experienced in building reusable components, integrating REST APIs, and delivering polished web applications in collaborative team environments.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Responsive Design, DOM Manipulation
Backend: Node.js, Express.js, RESTful APIs, Middleware, Authentication (JWT, Sessions), Error Handling, Input Validation
Databases: MongoDB, CRUD Operations, MongoDB Atlas, Aggregation Framework (basic)
Tools: Git, GitHub, VS Code, Postman, NPM, Chrome DevTools, Vercel, Firebase, Surge
Soft skills: Adaptability, Communication Skills, Time Management.

Experience

Web Developer (Squarespace CMS)   SM Technology | June 2025 – Present

At SM Technology, I design and develop professional, responsive, and user-friendly websites using Squarespace CMS, delivering customized digital solutions that align with diverse client goals.

- Design and customize Squarespace websites to meet client needs and deliver engaging user experiences.
- Implement content workflows to ensure brand consistency and optimize site performance.
- Stay updated on Squarespace features and web design trends to deliver modern, high-quality websites.

Projects

LuxeMatches – Matrimony Full Stack Web App   **Live Link** | **Client Link** | **Server Link**

Overview: **LuxeMatches** is a premium matchmaking platform where users can explore biodata profiles, request contact access via payments, and interact through a secure, responsive interface with dynamic filtering and admin control.

- **Role-based Access & Authentication**: Users can log in using Firebase Auth, and routes are protected with JWT for security.
- **Stripe Payment Integration**: Users can securely pay to request contact details, which are later approved by admins.
- **Dynamic Filtering & Pagination**: Users can filter Biodata by age, division, and gender with seamless client-server sync.

Tech Stack: MERN Stack (MongoDB, Express.js, React, Node.js), Tailwind CSS, Firebase Auth, Stripe, React Router, React Query, Framer Motion, SwiperJS, JWT, Axios

WorkNest: Job Management Web Application   **Live Link** | **Client Link** | **Server Link**

Overview: WorkNest is a modern web app that helps users efficiently track, manage, and organize their job applications in one centralized dashboard.

- **Role-based dashboards**: Three role-based dashboards. Admin, Hr, Employee(JWT protected)
- **Stripe integration** for employee salary payments
- **Work submission forms** and **monthly progress tracking**

Tech Stack: MERN Stack (MongoDB, Express.js, React, Node.js), Stripe, JWT, Firebase, Tailwind CSS, React Query, Framer Motion, Axios

Certifications

- **Complete Web Development from Programming Hero, Jan 2024 - July 2024**   **View Certificate**

Education

- **Govt. Tolaram College, Narayanganj, Dhaka.**   **[2023- 2024]**

Languages

- **Bengali** (Native) | **English** (Fluent) | **Hindi** (Comfortable)
